NewEnergy®

Cree Performance XHP50 LED Module
Power of Cree XHP Series in Standard and Custom LED modules

Data Sheet

Illumination Accelerated

Design Faster – use standard modules to shorten development time

Superior Performance & Cost – top flux bin LEDs at competitive prices

Thermal Interface Included – pre-installed to simplify assembly

Add Standard Optics – configured for off-the-shelf optics

Primary Applications

|	
High Mast	Canopy
Streetlight	Garage
Stadium	Portable
Architectural	High bay

Superior Performance in Standard & Custom Modules

• Market leading L90 & L70 lifetimes, even in high stress conditions
• 70, 80, and 90 CRI LEDs available
• Metal core PCB for optimal thermal management
• Configurable with off the shelf optics, and heat sinks
• Private label or custom designs available

Simplify Your Next Design

The Cree performance modules are an off-the-shelf platform to rapidly move from prototype to finished LED lighting fixture. These versatile building blocks include Cree XHP35, XHP50 & XHP70 LEDs in square, linear or rectangle formats. The thermal interface is already installed with easy to use connectors to help simplify the lighting design and get to market faster. These competitively priced modules come in a range of lumen outputs and can achieve both DLC Premium or DLC Standard lumens per watt specifications.

Integrate Further

NewEnergy also offers standard heat sinks and fully assembled IP-rated modules.

- Standard Off-The-Shelf Optics Available
- NewEnergy LED Module
- Thermal Interface Material (Included with Modules)
- NewEnergy Heat Sink.

About NewEnergy

NewEnergy accelerates the adoption of LED technology through simple, modular products and custom designs. Through 30 years of experience, state of the art manufacturing, full traceability and advanced quality controls, NewEnergy offers leading solid state lighting components, modules and custom solutions. NewEnergy customers get to market faster, with less resources, at lower costs. Visit New-EnergyLLC.com for more information.

[1] Product performance at 700mA Tj = 85°C.

[2] Cree XLamp XHP50 LED order codes specify only a minimum flux bin and not a maximum. NewEnergy may ship modules in flux bins higher than the minimum specified by the order code without advance notice. Shipments will always adhere to the chromaticity bin restrictions specified by the order code.
